All our patients were given an equal opportunity to join the Group via the methods mentioned above. We have had more patients join the virtual PPG, with two patients coming from an ethnic background (one African and one Indian). We will highlight this on the new Patient Practice Notice Board (% patients is only 21% as not all patients ethnicity is known to the surgery)

Gender					
Practice population profile			PRG profile		Representation
Gender	Number of Patients	% of Patients	Number of Patients in PRG	% in the PRG Group	% of PPG representation in comparison to Practice Population Gender Group
Male	4233	50%	25	44%	0.59%
Female	4290	50%	32	56%	0.75%
	8523	100%	57	100%	

Again equal opportunities have been offered as all groups were targeted in the same way.

Other patient groups we have targeted and how we have endeavoured to recruit.
